

# FUEL STORAGE FILTERS

## PROTECT YOUR FUEL AT THE SOURCE

If you own or operate heavy machinery, you know the importance of using clean fuel. If you sell fuel, you know the value of delivering clean fuel. That's why it's wise to filter your fuel at the source — your fuel storage tank.

Baldwin fuel storage tank filters will help prevent water, rust, fungus, bacteria, scale and grit from damaging your equipment. All Baldwin filters offer proven filtering efficiency, effectively removing harmful contaminants without stripping the important additives in your fuel.

Whether you use diesel or gasoline, a Baldwin fuel storage tank filter is the proven way to ensure your fuel is clean before it enters your equipment.

**STANADYNE™**  
Fuel Additives

## TOUGH PROTECTION FOR FUEL STORAGE TANKS

Filtering fuel as it leaves the fuel storage tank is critical to ensuring clean fuel for your equipment. But it is also important to keep fuel well maintained while stored. Water, temperature and other contaminants can affect the quality of the fuel, causing it to degrade over time.

Adding **Stanadyne Fuel Additives** to your fuel storage tank will help stabilize your fuel and help improve engine performance. Performance Formula additives, with the demulsifying properties, also enhance the water removal efficiency of coalescers and fuel/water separators.

Visit [www.stanadyneadditives.com](http://www.stanadyneadditives.com) for more information on the complete line of Stanadyne Fuel Additives.
