

Donaldson Delivers
**Filtration Solutions for the
Marine Market**

On-Board or On-Shore,
Breathe Easy with
Donaldson Filters

Donaldson Filtration Solutions for Tugs, OSV, Crew/Supply Ships, Trawlers & Stevedoring

At Donaldson, we offer air intake, lube, coolant and transmission filters for many marine engines, z-drives, generators and compressors. We also offer a wide range of hydraulic filters and accessories for a variety of marine and stevedore equipment.

Donaldson Delivers

- **Industry-leading technology** – uncompromising product quality
- **Broad Product Coverage** – air, lube, fuel, coolant and hydraulic filters and systems, plus exhaust, accessories and more
- **Consistent Product Availability** – the filters you need, when you need them
- **Comprehensive Customer Service** – experienced and knowledgeable sales and technical support teams
- **Distribution That Makes a Difference** – support from exceptional partners that know transit equipment and are quick to respond
- **Warranty** – industry leading coverage
- **Far Reaching Field Support** – Donaldson Representatives are nearby and ready to assist

Filtration Products for On-Board & On-Shore Marine Applications

Air Filtration

Today's high performance engines and tougher emissions standards demand higher-performing air intake systems.

Air cleaners

Since 1915, Donaldson has pioneered the development of nearly every major advancement in heavy-duty engine air filtration. Nothing else performs like our industry leading air cleaners.

Replacement filters deliver better protection with Donaldson Blue™ filters or PowerCore® filtration technology.

Duralite™ disposable air cleaners

are designed for high/severe pulsation conditions, ideal for two- and three-cylinder engines, propulsion units and gen sets.

Hydraulic Filtration

Performance under **any** pressure. Protect expensive hydraulic components with Donaldson's complete line of spin-on, cartridge-style and in-tank hydraulic filters.

Low Pressure filters rated for working pressures up to 350 psi, in-tank and in-line configurations.

Duramax

Medium Pressure Duramax® filters have become the industry standard for operating pressures up to 2000 psi.

High Pressure heavy-duty filters rated for pressures up to 6500 psi for critical applications.

Cartridge style DT filters, using Donaldson Synteq™ media technology, help extend the life of heavy-duty equipment.

Off-line filtration

polishes new lubricating oils and achieves baseline ISO cleanliness levels – prior to dispensing into equipment, gearboxes and reservoirs.

Lube Filtration

Donaldson lube filters keep oil clean by capturing contaminants that can cause engine damage.

Lube filters capture wear metals, soot and contaminants to maintain today's higher cleanliness standards.

Donaldson
BLUE™

Donaldson Blue™ lube filters with Synteq™ media are designed specifically to provide longer filter life – a critical component of any extended filter maintenance program.

Filtration Products for On-Board & On-Shore Marine Applications

Clean Fuel & Lube Solutions™

We believe that fuel-related issues shouldn't be your operational problem. We believe you shouldn't be slowed down by dirty fuel, fuel chemistry issues or water in your fuel. We believe that with clean diesel you can **Achieve More**. Learn more at mycleandiesel.com.

Clean Solutions fuel & lube filters provide unrivaled cleanliness in a single pass.

Clean Solutions filter manifolds expand capacity or increase flow rate beyond the capability of a single or dual filter head.

T.R.A.P.™ vent breather and Active Reservoir vent breather protect the contents of your storage tank from airborne moisture and particulate contamination.

Bulk hP filters and heads provide high efficiency filtration in a single pass, at system pressures up to 1000 psi (69 bar).

Mufflers and Exhaust Accessories

A complete line of mufflers, clamps and exhaust accessories.

Mufflers for medium- and heavy-duty diesel powered equipment.

Clamps and accessories reduce exhaust leaks and noise.

Filtration Accessories

Reduce costs and eliminate over-servicing with our complete line of air intake, engine liquid and hydraulic filtration accessories.

Fuel Filtration Products for On-Shore Marine Applications

Not for use in on-board applications

Fuel Filtration

Donaldson fuel filters help keep your on-shore engines and equipment running smoothly. They're a better way to filter fuel.

Note: Fuel/Water Separators with plastic parts are NOT for use in on-board marine applications.

Fuel filters Donaldson provides filtration solutions that protect engine components and help extend equipment life.

Cummins® engines Twist&Drain™ filters with integrated WIF sensors simplify the complicated task of removing water.

Cummins® is a registered trademark of Cummins Inc. Racor® is a registered trademark of Parker Hannifin Corporation. DAVCO® and Fuel Pro® are registered trademarks of DAVCO Technology, LLC.

Racor® fuel systems Twist&Drain™ filters with threaded sensor ports work with existing WIF sensors.

DAVCO® Fuel Pro® 380/382/482 Fuel Processors Affordable replacement cartridges for a variety of applications.

For more information on our full line of filtration products and accessories, visit shop.donaldson.com.

Finding your Donaldson filter online has never been easier.

DISCOVER.

Looking for a complete filtration system or advice on choosing the right filter option? Go online to **donaldson.com** to learn about the broad range of filtration solutions offered by Donaldson – and to help you decide which option is right for your application.

DECIDE.

If you're an equipment owner that needs to purchase filters and parts – it's easy to find the right Donaldson part, make an online shopping list and even request a quote from one of our distributors. We make finding filters *easier than easy* at **shop.donaldson.com**.
