Product code: M385

Product Description:

Taurus Resilient 10W-40 is a premium quality heavy duty diesel engine oil. It is a synthetic blend of severely hydrotreated base stock, viscosity index improver, pour point depressant and a powerful state of the art performance system that is right at the forefront of modern additive technology.

Benefits:

- Unsurpassed engine protection even under the most arduous operating conditions
- Extended drain intervals
- Greater robustness in the presence of biofuels

Applications:

Taurus Resilient 10W-40 is formulated for use where there is a requirement to satisfy the requirements of Scania and is designed to provide the longer drain intervals demanded by the OEM. Taurus Resilient 10W-40 is particularly suitable for Scania engines where piston cleanliness, oxidation, wear and emissions need to be finely controlled.
