HYDRAULIC ISO 46 – PREMIUM HYDRAULIC FLUID

Ensure smooth, reliable performance for your machinery with our Premium Hydraulic Fluid, specially formulated to keep systems running efficiently under demanding conditions.

Made from highly refined base stocks, it offers excellent oxidation resistance, thermal stability, and long service life.

Fortified with advanced additives, this hydraulic fluid provides outstanding anti-wear protection, safeguards against corrosion even in the presence of water, and minimises foaming for consistent operation. Ideal for a wide range of applications—including industrial hydraulic systems, agricultural and plant equipment, mobile units like jacks, and lightly loaded gears—this versatile fluid delivers the protection and performance your equipment needs to keep working at its best.

RECENT EVENTS

THAT'S A WRAP ON VERTIKAL DAYS 2025!

Thank you to everyone who visited the RICO Europe stand at this year's Vertikal Days — it was a great couple of days at the UK's premier access and lifting industry event.

Location: Lincoln Road, Newark

Dates: 10–11 September 2025

Stand: MP55

Day One brought the energy – plenty of footfall, lots of great conversations, and lots of visitors stopping by to chat with the team, grab a giveaway bag, and enter our competition to win a £100 Amazon Voucher.

Day Two was a bit damp thanks to the rain, but that didn't stop us from meeting more customers – both new and existing – and continuing to showcase our filtration and lubricant solutions, as well as our free Fleet Management Tool.

We handed out branded bags full of product literature, giveaways, and sweets – a small thank-you to everyone who stopped by.

Overall, a really positive show. We were proud to be part of it, and we're already looking forward to the next one.

ONE STANDOUT OF THE EVENT?

Free tea, coffee, soft drinks, sandwiches, and pastries were available across both days for all visitors and exhibitors – a great touch that kept everyone fuelled and focused.

COMPETITION

And the winner is... **Christopher Low!**

Christopher was the lucky entrant drawn from our competition to win the £100 Amazon Voucher.

BACK AT NEWARK FOR PLANTWORX 2025!

Just two weeks after Vertikal Days, the RICO Europe team returned to the Newark Showground – this time for Plantworx 2025, the UK's largest live demo event for construction equipment and technology.

Location: Newark Showground

Dates: Tuesday 23rd September 2025 – Thursday 25th September 2025

Stand: QA-03 inside the Pavilion Building

Over three busy days, we connected with new and existing customers, showcased our online tools, and demonstrated how our Cross-Reference Tool makes it fast and simple to find in-stock alternatives for filters and parts.

Our stand team was there from start to finish, handing out branded bags filled with company info, product literature, and giveaways – and talking shop with hundreds of visitors.

It was great to see so many familiar faces. We really appreciated the positive feedback from existing customers who stopped by to share their experiences with our products and services.

The weather mostly held up – a mix of sunshine and cloud – and it was brilliant to see the latest machinery in action from top brands like JCB, Manitou, Yanmar, Astrak and Takeuchi.

Thanks to everyone who came by the stand – we had a great time at Plantworx 2025.

ONE OF THE HIGHLIGHTS?

Our LEGO Excavator Competition.

With over 70 entries, the contest was a hit – and we're excited to say a big congratulations to Helen Hall, the lucky winner of the draw!
