In this issue

Our team has been hard at work adding over 4,000 new machine applications to our ever-growing database.

We are also in the process of developing 2,000 new filter service kits so be sure to watch this space...

Do you know much about our Filter Application Guide?

We've put together an example guide to show our customers the benefit of using the RE Fleet Manager service.

Be sure to read our case study and see firsthand how RE Fleet Manager can make a fitter's life easier.

Important:

Our customers must now be registered and logged in to use our website services such as **Cross Reference & Part Finder**.

Introducing The Filter Application Guide

The Filter Application Guide is an indispensable asset for workshops and day-to-day business operations.

Our online PDF tool can be downloaded and printed into a workshop booklet, easily updated as your fleet grows.

This tool promises convenience, personalisation, and user-friendliness, ultimately improving your workshop operations.

- ✓ A Workshop Essential
- ✓ Streamlined Ordering Process
- ✓ Prevent Costly Errors
- ✓ Tailored for Your Fleet

CASE STUDY

Challenges

My fitter sadly passed away a couple of years ago, and since, I have taken on the job doing all the maintenance on the following machines in my fleet... **Ransomes 350D mower, Toro 216D Mower, Merlo Multifarmer, David Brown 996 Tractor, John Deere 1154 rotary mower, JCB 8027 ZTS Excavator, Lister TS2 Generator**, and a **150 x150mm woodchipper**.

As you can imagine there is quite bit to keep track of when it comes to what filters fit to which machine.

Objectives

I was able to add the machine applications for each of my machines in to one centralised place, it made it possible to manage my machinery service schedules.

Solutions

The website is very easy to use and I can easily order the filters I need for the machines in my fleet when I require them.
